

PRELIMINARY PLANS

IDA BELLE DRIVE AND MONTEZUMA ROAD INTERSECTION JULY 2021

GENERAL NOTES:

1. Plans developed therein are for information and concept design only, and are not intended for construction.
2. The Contractor is warned that conflicts with existing utility services may exist. Prior to beginning any construction, the Contractor shall contact all appropriate utility companies for line locations. He shall then locate all utilities (including depth). Any conflicts with the proposed construction shall be brought to the attention of the Engineer so that line or grade changes can be made to eliminate any conflicts with these existing utilities. All existing utilities shall be protected from damage by the Contractor. Damaged utilities shall be repaired by the Contractor at no expense to the Owner.
3. The Contractor shall comply with Article 1.5 of Title 9, CRS ("Excavation Requirements") when excavating or grading is planned in the area of underground utility facilities. The Contractor shall notify affected utilities at least two (2) business days, not including the actual day of notice, prior to commencing such operations. The Contractor shall contact the Utility Notification Center of Colorado (UNCC) at 811, or 1-800-922-1987, to have locations of UNCC registered lines marked by member companies. All other underground facilities shall be located by contacting the respective owner. Utility service laterals shall also be located prior to beginning excavation or grading.
4. Utility Quality of data points therein are level C as described and in conformance to CI/ASCE 38-2, Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data.
5. All construction shall conform to Federal, State, and County standards and specifications and be subject to construction observation by their representatives. Copies of Federal, State, and County standards must be obtained by the Contractor. Contractor shall have one (1) copy of the plans and one (1) copy of the appropriate specifications on the job site at all times. The Contractor shall have one (1) complete set of the Contract Documents on the job site at all times.
6. Contractor shall not scale drawings for construction purposes. Any missing dimensions or discrepancies in plans, field staking or physical features shall be brought to the attention of the Engineer. If Contractor proceeds with the work without notifying the Engineer, he does so at his own risk.
7. Observations of the work in progress and on-site visits are not to be construed as a guarantee or warranty by the Engineer of the Contractor's contractual responsibilities.
8. Safety is the responsibility of the Contractor. The Engineer is not responsible for safety in, on or about the project site, nor for compliance by the appropriate party with any regulations relating thereto.
9. The Contractor shall provide all lights, signs, barricades, flagmen or other devices necessary to provide for public safety in accordance with the current Manual on Uniform Traffic Control Devices.
10. Contractor shall be required to maintain existing drainage channels, culverts and appurtenances during construction necessary to protect existing roads and property.
11. It is the Contractor's responsibility to protect and preserve all trees, bushes, shrubs and ground cover in a manner acceptable to the Owner.
12. Restore or replace all disturbed shoulder and landscaped areas to a condition equal to or better than preconstruction conditions.
13. Contractor shall obtain all necessary permits to complete the work.
13. Topographic survey data provided by Colorado Land Surveying, dated June 09, 2021.
